It is said that Mr. Cleveland's farewell message to congress, which he is now preparing, will be devoted almost exclusively to the money question.

Official returns have now been reseived from all the close states and the total electoral vote for Bryan is 171. The one vote in Wyoming, which was in doubt, has been settled in favor of Bryan, and one Bryan elector is chosen in Kentucky by a majority of 2,000 over the lowest McKinley elector.

PARTIES in the city of Mexico have secured patents on a process to manufacture coffee brandy, called Coferino-This is produced by the distillation frem coffee husks, which hitherto have been considered waste material. It is proposed to put this brandy on the market in Mexico and also in the United States.

GENERAL MILES has followed in Gen. Schofields footsteps by advocating a revision of the law of 1885 which limits the strength of the army to 25,000 men. In his annual report he suggests that the minimum strength should be one soldier to every 2,000 citizens and the maximum one soldier to every one thousand citizens.

The decision in the United States sppreme court overruling the decision of Judge Ross of California, and sustaining the constitutionality of the Wright irrigation law, is one of the most important decisions, in regard to its effect upon the interests of all the irrigation states, that has ever been made by the suprame court.

Jake Shearer and Mr. Duval were in town for a short time yesterday on business, but left for home in the early forenoon. They are as busy as any one with their cattle interests just now and on the move much of the

An unusually large number of traveling men came in on the train this evening. There seemed to be quite a little competition between several of the gentlemen who were all anxious to get the large order which Blowett and Rucattle generally place about this time of the year. We are afraid the gentlemen nearly all got left as we hear that Mr. Rucastle intends going east himself to select the large stock opring.

Quite an amusing joke has just com to light on one of our most diguine! and respected citizens. This time it is no less a personage than Mr. W. A. Harvey, the superintendent of the A. and S. E. railroad, a gentleman who is supposed to possess his dignity and composure at all times. He lost his presence of mind for a few moments the other afternoon, however, and as a consequence has had to stand the many jibes and jokes of his numerous friends for several days now and still the end comes not.

It seems that on the sternoon in question Mr. Harvey was intently engaged in watching the loading of stock at the cattle pens. In some inexplainable way he managed to reach a position between the cars and the stock pens within a few feet of the chute at the very time that an excited eteer took to rearing and plunging, ending a moment later by trying to jump out between the car and the chute on the eide immediately next to him. Postoffice Inspector Waterbury who is making his rounds to meeting the Arizona postoffices, wrote from Bowie to the Division Chief at Denver of the postoffice robheries by Plack Jack and bard, His letter covers depredations in New Mexico and Arizona since July 20 last, at which time the postoffice at Separ, Grant county, New Mexico, was robbed by holdups. Since that time the same gang has attempted to hold up the Atlantic & Pacific mail train at Rio Puerco station in New Mexico, the Southern Pacific mail train at at Deming, New Mexico, and the postoffices at Bowie station and at Teviston this county. In describing the operations, Inspector Waterbury writes

as follows from Bowie: "These same bandits have successfully held up and robbed four stages on the San Autonio and White Case, the pouches and rifling the registered the pouches and rifling the registered morning to night. The Sort of Bars Turned Out at La Fortung

Wednesday morning on the 10:30 train for California, Hon. Rott. M. Stans, superincendent of La Fortuna Mining and Milling company, went through Yuma in custody of a bar of gold bullion which, by actual weight was worth the enormous ours of 892. 545.90. The bar included three ten date clean-ups, or thirty days running of the twenty-stamp mill of the company. This is the largest month's clean up the company has ever made, but they expect to reach the handred thousand mark before long. The output has increased each month, and the possibilities of the mine seem unlimited,-Yuma Sentine).
